OUR PLEDGE REGARDING MEDICAL INFORMATION:

We understand that medical information about you and your health is personal. We are committed to protecting medical information about you. We create a record of the care and services you receive. We need this record to provide you with quality care and to comply with certain legal requirements. This notice applies to all of the records of your care generated by the organization, whether made by organization personnel or your personal doctor.

This notice will tell you about the ways MidMichigan Community Health Services may use and disclose medical information about you. This notice also describe your rights and certain obligations we have regarding the use and disclosure of medical information.

HOW WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU:

The following categories describe different ways that we may use and disclose medical information. For each category of uses or disclosures we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

• For Treatment. We may use medical information about you to provide you with medical treatment or services. We may disclose medical information about you to doctors, nurses, technicians, medical students, or other organization personnel who are involved in taking care of you. Different departments of the organization also may share medical information about you in order to coordinate the different things you need, such as prescriptions, lab work and x-rays. We also may disclose medical information about you to people outside the organization who may be involved in your medical care after you leave, such as family members, clergy or others we use to provide services that are part of your care.

• For Payment. We may use and disclose medical information about you so that the treatment and services you receive at our facility may be billed to and payment may be collected from you, an insurance company or a third party. We may also tell your health plan about a treatment you are going to receive to obtain prior approval or to determine whether your plan will cover the treatment.

• For Health Care Operations. We may use and disclose medical information about you for organization operations. These uses and disclosures are necessary to run the organization and make sure that all of our patients receive quality care. For example, we may use medical information to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many patients to decide what additional services the organization should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians, medical students, and other organization personnel for review and learning purposes. We may also combine the medical information we have with medical information from other organizations to compare how we are doing and see where we can make improvements in the care and services we offer. We may remove information that identifies you from this set of medical information so others may use it to study health care and health care delivery without learning who the specific patients are.

• Sharing Information to Coordinate Care. In the course of caring for you, your provider will share medical information to coordinate
with other providers as appropriate who are involved in your care.

- **Appointment Reminders.** We may use and disclose medical information to contact you as a reminder that you have an appointment for treatment or medical care at our organization.

We may also give information to someone who helps pay for your care. In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location.

- **Research.** Under certain circumstances, we may use and disclose medical information about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another, for the same condition. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with patients’ need for privacy of their medical information. Before we use or disclose medical information for research, the project will have been approved through this research approval process, but we may, however, disclose medical information about you to people preparing to conduct a research project, for example, to help them look for patients with specific medical needs, so long as the medical information they review does not leave the organization. We will almost always ask for your specific permission if the researcher will have access to your name, address or other information that reveals who you are, or will be involved in your care at our organization.

- **Health Information Exchange.** We may make your PHI available electronically through health information exchanges (HIEs) to other health care providers, health plans and health care clearinghouses. Participation in HIEs also lets us see their information about you which helps us provide care to you. You have the right to opt out of participating in such efforts by contacting the Privacy Officer at any time.

involved and you may choose to withdraw or modify your request at that time before any costs are incurred.

disclose about you for treatment, payment or health care operations. You also have the right to request a limit on the medical
